METHODOLOGY

Travel + Leisure Family Rankings

Rankings are based on reader evaluations collected in Travel + Leisure's 2006 World's Best Awards survey. Readers were given the option to rate resorts on how well they cater to families, using a scale of 1 to 5, where "5" means excellent and "1" means poor. Scores are indexed averages of evaluations, rounded to the nearest hundredth of a point.

World's Best Awards Survey

A questionnaire developed by the editors of Travel + Leisure in association with Harris Interactive was available to Travel + Leisure subscribers at www.tlworldsbest.com during the first quarter of 2006. Respondents were asked to rate hotels, islands, airlines, travel destinations, accommodations, services, and modes of transportation on multiple characteristics. Respondents reported where they had traveled to worldwide and how, and they rated only the attributes that were relevant to their

recent travel experiences. The scores are indexed averages of responses concerning the applicable characteristics.
